Features

Properties and benefits

- + SDS+ shank: attachment for SDS+ hammer drills (10 mm shank diameter) compliant with the SDS+ label, up to a power of 3 joules. ➡ Maximum striking power transmission for the simple and fast processing of the most difficult materials. For bits measuring 4 to 25 mm.
- + High strength steel body: body designed in a grade of steel designed for thermal processing, enabling excellent power and torque transmission. ➡ Enables optimal power and torque transmission to the head of the tool.
- + Cutting insert with 3 cutting edges: carbide cutting insert with three curved and serrated cutting edges. ➡ Enables the fast and long-lasting drilling of hard materials and reinforcing rods, thanks to its centring point and its curves and serrated cutting edges.
- + Triple flute: body of the tool designed with 3 flutes for the optimal evacuation of materials ➡ For optimal and regular evacuation of dust., without an aerosol effect.
