

963IT51 | Flashcut machine tap HSSE-PM -TiCN MP coated -BSP G -DIN 5156 -Shape C -6H

High performance (sintered steel) tap for steels, stainless steels and refractory alloys. TiCN-MP coating increases tool life and reduces friction. Profile: BSP G.

- Especially for stainless steels
- Made in Spain
- Spiral flute
- TiCNMP coating

Machine

Application

Features

Properties and benefits

- + Spiral flute : A flute shape that allows chips to be evacuated through the entrance to the hole. ➡ Allows better heat resistance due to better chip evacuation. For blind holes.
- + TiCNMP coating : Hardness 3200HV, coefficient of friction 0,20, resistance to heat (400°C). ➡ Low friction coefficient. Excellent chip evacuation. Increased tool life.
