

XT60012 | 90° carbon steel countersinker - Hexagonal shank - Especially for wood ESSENTIAL (Blister)

Chamfering milling cutter for woods and plastics Suitable for screwdrivers and bit holders.

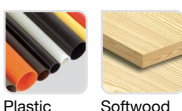

- Especially for wood and plastics
- Economical burr
- Quick tool changing
- Carbon steel
- 90° milling angle
- 6.35 mm hexagonal shank

Machine

Application

Features

Properties and benefits

- + Carbon steel: body designed in a grade of steel designed for thermal processing, enabling excellent power and torque transmission. ➡ Enables the fast and precise cutting of the tools into soft and hard woods. Superior service life.
- + 90° milling angle : For 90° chamfering operation. ➡ For making 90° chamfering to down screw and/or rivet heads.
- + 6.35 mm hexagonal shank / DIN 3126 C 6.3 standard: geometric characteristics comply with dimensional standards. ➡ Enables a perfect hold with bit-holders.
