

Versatile use on high-strength and stainless steels.

- Especially for steels and cast irons
- Flooding of the screw heads
- Post-drill deburring

- 90° milling angle
- Cylindrical shank
- High-speed steel

Machine

Application

K- Ferrous
Cast iron
with Short
Chips

P1-
Unrealized
steels

P2-
Weakly
allied
steels

Features

Properties and benefits

- + 90° milling angle : For 90° chamfering operation. ➡ For making 90° chamfering to down screw and/or rivet heads.
- + Cylindrical shank: the diameter of the shank is equal to the diameter of the tip. ➡ Enables versatile use on portable electrical tools and CNC machine tools.
- + High-speed steel: HSS substrate ➡ For general use in steels and cast irons up to 950 N/mm²
