

For stripping work, such as the removal of paint, rust, and limescale

- Cylindrical shank
- Steel wire
- Corrugated wire
- Cup shape

Machine

Application

Sheet metal

Painted metal

Rust

Features

Properties and benefits

- + Cylindrical shank: rectified cylindrical shank, standard, without flats. ➡ Suitable for all types of drill.
- + Steel wire: bristles that are highly resistant to wear and traction ➡ Enables stripping, rust removal, and the deburring of all your surfaces.
- + Corrugated wire: light stripping of your surfaces, thanks to the crimped material. ➡ Enables the gentle brushing of your surfaces with no need to apply pressure.
- + Cup shape: round geometry for use on flat surfaces. ➡ Enables simple stripping on flat and wide surfaces.
