

1159242 | Impact reducer & increaser - IMPACT TECHNIC (Blister)

Reducers and increasers for using your full range of sockets on any machine. Practical for the use of all socket types.

- Laser marking
- CrMo steel
- Black phosphated aspect
- For impact machines

Machine

Features

Properties and benefits

- Laser marking: product data and characteristics indelibly engraved. Allows you to instantly find the right product for the right use.
- ← CrMo: steel with chromium and molybdenum for improved load and corrosion resistance. Very high resistance to pulses from the machine, and a longer-lasting tool. Impreoves resistance to wear and heat.
- ♣ Black phosphated: chemical surface treatment process. Senables greater resistance to corrosion
- → Shock Series Impact: geometry and material specifically designed for use on high-power impact machines. Resistant to high tightening torques and can handle all seized screws and bolts.

Sets

6 pieces - 3 reducers + 3 increasers -IMPACT
