Features

Properties and benefits

- + Diamond cut HM blades: cut micro-grain tungsten carbide blade for a diamond grinding wheel. ➡ Enables simple and precise work on hard or soft woods, melamine-coated woods, laminated woods, and plastics. Offers a clean cut, and comfortable cutting.
- + Anti-shock: 4 corners made from anti-shock elastomer, and a glass panel for a perfect view of the contents. ➡ Transport this case to your sites, and carry it up a step ladder or ladder in complete safety: the case can withstand any potential drops.
- + Versatile composition: selection of the most used dimensions and geometries. ➡ This case is suitable for the majority of standard requirements.
- + Anti-cut rack: SAFE-PICK system guaranteeing the secure handling of tools thanks to the fixing inserts. ➡ Good grip and the simple storage of tools, without any risk of cutting yourself.
