

# 11434370002 | 5 fully ground HSS metal drill bits, special cut, hexagonal shank 6.35 mm Ø 2 to 6 mm

Special high-performance sheet metal and tubing drill bit, special burr-free cut Suitable for the Shock Series machines 6.35 Quick-Change hexagonal shank.

- Especially for steels and aluminiums
- Burr-free drilling
- Ultra-precise drilling
- Quick tool changing
- Crown Tip point
- Quick-change shank
- 30° type N flute
- High-speed steel
- For impact machines

Ø 2- 3- 4- 5- 6mm - CLIPSTER case

#### Machine

### **Features**

## **Properties and benefits**

- + Crown tip grinding: with centring points and crown-shaped lips. Circular, burr-free drilling of fine sheet metals and palstic materials.
- Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard → Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- → 30° type N flute: normal flute profile with a 30° helix angle. Suitable for general use. Provides good rigidity to the tool, as well as excellent drilling precision.
- 🕂 High-speed steel: HSS substrate 🕏 For general use in steels and cast irons up to 950 N/mm²
- → Shock Series Impact: geometry and material specifically designed for use on high-power impact screwdrivers. © Can withstand high torques, for an improved service life.
