

High-performance drill bit for the fast and intensive drilling of high-strength steels, thanks to its helical fluting and self-centring sharpening.

- Especially for fine high-strength steel sheets
- Superior long life
- Rapid drilling
- Optimal chip removal
- Anti-rotation attachment

- Automatic centring
- Tri-flat shank
- High-speed steel

Ø 4 to 12 - 4 to 20 - 4 to 30 mm Plastic Case

Machine

Application

Features

Properties and benefits

- + Split-point grinding: reduction of the drill tip. ➡ Enables the simple self-centring of the drill bit on the smoothest of surfaces. Significantly reduces the required axial load.
- + Tri-flat shank: cylindrical shank with 3x 120° flats, for 3-piece drill chucks. ➡ Enables maximum torque transmission Prevents the rotation of the bit in the chuck. Specially adapted for through-holes.
- + High-speed steel: HSS substrate ➡ For general use in steels and cast irons up to 950 N/mm²
