

10927170001 | 5 ALLCUT drill bits - Ground carbide cutting insert - Ribbed fluting (Case) / Ø 6-8-10 mm L: 160 mm

Incredibly quick high-performance drill bit in rotation mode for hollow materials, tiles, steels, woods and HPL, thanks to its precise and long-lasting cut carbide cutting insert. Reduced SDS+ shank.

- Especially for tiles and earthenware
- Especially for concrete and construction materials
- Especially for hardwoods and metals
- Rotation drilling
- Incredibly fast drilling

- SDS+ shank
- High-strength steel
- Carbide cutting insert

Ø 6 - 8 - 10 mm L 160x100

Features

Properties and benefits

- + SDS+ shank: attachment for SDS+ hammer drills (10 mm shank diameter) compliant with the SDS+ label, up to a power of 3 joules. ➡ Maximum striking power transmission for the simple and fast processing of the most difficult materials. For bits measuring 4 to 25 mm.
- + High strength steel body: body designed in a grade of steel designed for thermal processing, enabling excellent power and torque transmission. ➡ Enables optimal power and torque transmission to the head of the tool.
- + Ground carbide cutting insert: carbide cutting produced by means of a special grinding process performed on its two cutting edges, for excellent sharpness ➡ Enables the clean and precise cutting of materials. Simple centring of the tool.
