

Bit holder with tube enabling the guidance and holding of the screw + Ph1 / Pz1 / slotted 5.5.

- 4 mm hexagonal shank
- Quick-change shank
- magnetic

Machine

Features

Properties and benefits

- + 4 mm hexagonal shank: specifically for precision bits ➡ For very small bits designed for manual use with a screwing handle.
- + Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard ➡ Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- + Enables the transmission of the magnetisation to the screw or nut. ➡ Enables convenient and faster work, by preventing the dropping of screws or of the nut, thanks to its magnetisation.
