

Insert the bit into the bit holder. Slide the sleeve by pushing on it. Insert the screw into the screwdriver bit, the magnetisation will be automatic.

- Quick-change shank
- magnetic
- Head with powerful magnet
- For impact machines

Bit holder, adjustable from 60 to 70 mm

Machine

Features

Properties and benefits

- + Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard ➡ Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- + Enables the transmission of the magnetisation to the screw or nut. ➡ Enables convenient and faster work, by preventing the dropping of screws or of the nut, thanks to its magnetisation.
- + Powerful circular magnet for the magnetisation and securing of long and heavy screws ➡ No more dropped screws. Fast and precise screwing, productivity is significantly increased and you save time.
- + Shock Series Impact: geometry and material specifically designed for use on high-power impact machines. ➡ Resistant to high tightening torques and can handle all seized screws and bolts.
