

11101720003 | Telescopic Magnetic Rod with Powerful Magnet

Handy for picking up a heavy metal part that has fallen in a hard-to-reach area. Its powerful magnet and long telescopic shaft give you plenty of reach.

The tool has a telescopic shaft which, when unfolded, reaches a length of 78cm. Capable of lifting up to 2kg, the head of the tool is fitted with a powerful magnet and the telescopic shaft has been reinforced. Finally, the ergonomic handle coating ensures an excellent grip.
